

Elementary Math Specialist Endorsement

**Southwest
Educational
Development
Center**

FALL COURSE:
**Curriculum, Instruction,
and Assessment**

3 Credit Hours

SPRING COURSE:
**Elementary Mathematics
Education Leadership for
School Change**

3 Credit Hours

SEDC is working with Utah Valley University and USBE to provide the Elementary Math Specialist Endorsement program for teachers across Utah. This endorsement consists of two additional classes after completion of the Elementary Math Endorsement. These classes will be taught utilizing Zoom Video Conferencing and Canvas, so no travel is necessary. Participation in synchronous Zoom meetings once a week is required. The program is designed for currently licensed elementary teachers that also have the Elementary Math Endorsement.

There is a \$210 course fee for each course payable to SEDC. Teachers must also register with UVU and pay the \$45 transcript fee. Courses are offered consecutively and teachers may join the cohort at any time. It is anticipated that participants will complete the coursework and competencies for this endorsement in 12 months.
